

Hope Missions

November 2024

Building

Architecture is getting closer and closer to completion. Site plan work is ongoing. We are beginning to fill in all the slots with volunteers.

I have had conversations with people to do the dirt work, put in footers, do underslab plumbing, and pour the slab. One missing area right now is someone to lay the block for the foundation stem wall. Please pray for God to provide in this need. If you know of anyone please let us know.

The volunteer labor is the powerful force that makes building possible. All the savings compiled through volunteers is incredible.

Additional Land

The surveyors were here the last week of November. Once they create the new legal discription, we should be able to move forward with the closing.

Thank you to all who prayed for this important need. God has granted us a tremendous blessing with the acquisition of the access road and the additional ½ acre of land.

Outreach

Our prayer out reach door to door ministry has continued, although the weather is making it hard to continue at this point. We are not afraid of the cold, but it is difficult to ask people to visit with you at their door in 30 and 40 degree temperatures.

Soon we will design one or two mailout card to be sent out during the winter months. This has been effective and we pray that it will be again this winter.

Of course daily witness in each members life remains the most significant outreach we do. Please pray for many more to come to Christ and dedicate themselves as his followers.

Macedonian Missionary Service

We are blessed to be partnering with Macedonian Missionary Service for our build. These builders are a blessing to us, as they bring in their highly skilled trades to make our facility a reality.

One division of Macedonia is REACH. They will be bringng this amazing cook trailer to feed all the volunteers while they are here.

If you are not familiar with the work of Macedonian Misssionary service, I would encourage you to learn more about their multifaceted mission endeavors by

going to macedonianms.org.
