

# Hope Missions

February Report

## Land and Building

We have finally made it through all the steps required to finalize the purchase of the extra ground. As I write, the documents are waiting at the title company to be signed.

The Planning Commission has approved our plans and March the 18<sup>th</sup> is the date to get final approval from the Town Council. Once that approval has been given, we can get our state release, county approval, and finally the building permit.

Step by step, we are getting there.

## New Copier

I have a copier/printer that I have been using for 13 years. I felt like God made it like the children of Israel's sandals in the wilderness. Unfortunately, it finally gave up the ghost.

It was my intention to bring it up in this report and give you the opportunity to help us replace it, as I know that several churches enjoy a specific project.

Well, praise God before I could get it to you someone in the church here said that God laid it on their heart to purchase the printer.

It is truly exciting to see these signs of maturity in the group here.

## Out Reach

### 1. Mail Out Cards

We mailed out 5,000 cards at the end of January. We have already had visitors as a result. We will do about the same number just prior to Easter, please pray for their effectiveness.

### 2. Easter

Our people have planned an Easter event for the community in addition to a special Palm Sunday and Easter services. Please pray with us that people will respond to being invited to these services.

### 3. Summer

We admitted to ourselves that it would be difficult to do as much as we normally do in the summer with our building program going on, so we scaled back a little bit.

Our people planned a summer kick off event and a back-to-school event. One is like a one-day VBS and the other is a carnival type fun atmosphere. Please pray for these efforts to reach the lost and connect us with more families.

#### **Tentative Building Schedule**

1. Dirt work and footers (Late April early May)
2. Foundation Wall (Early to mid-May)
3. Under slab plumbing (Mid to Late May)
4. Pour slab (June)
