

Hope Missions

April 2025

Building

Things are now full blast on the building. We need your prayers that we will have wisdom and the continued favor of God.

The silt fence has been installed and the building is laid out and ready for the footing to be dug.

Money

God's provision for this project has been incredible. We have projected that the building will be \$500,000. We had about \$390,000, when we bought the additional land. That cost \$50,000, which took us down to \$340,00.

This month we got a very special offering of \$60,000. Amazing! That means we are about \$100,000 away from our estimated cost. We praise God for additional offerings that are coming in.

It does become a bit more real once you start spending the money. The silt fence, footing, and block foundation wall, will come in at over \$16,000. While that is a lot of money, without our volunteer labor it would have been between \$30-35,000.

We are grateful for how God is using people. Help us pray for

God's continued provision. **I believe it is possible to complete this without needing to borrow any money** and that is what I am asking God to do.

Easter Service

We had a tremendous Easter service with our largest attendance to date, 64. This number is very encouraging as only 5 were first time visitors and several of them came again on the next Sunday.

We do have several people right now that need to make decisions for the Lord and we ask you to pray for them to be obedient to him.
