More Baptisms and Salvations

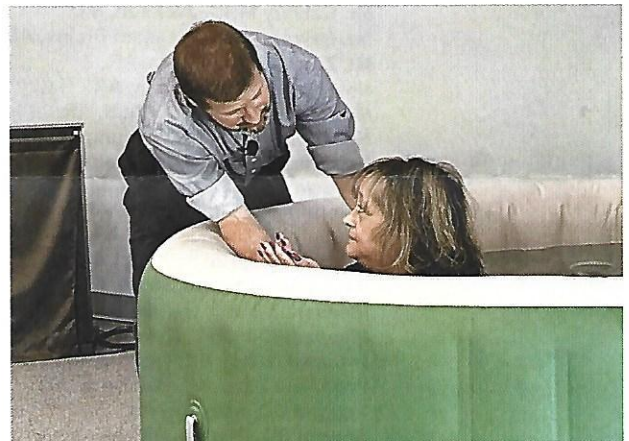

It was our great joy to see Chris come to faith in the Lord. Having an experience when he was young that he could not look back on with confidence, he received Christ as savior in my office and then followed the Lord in baptism.

Brenda had been saved about 3 years ago, but lacked assurance in her salvation. After going over scripture with Missy and I in the office, she became confident in her salvation and security. She had never been baptized, so she took that most important step.

Another young lady in her 20's met with Missy and I in the office and received Christ as her savior and we are looking to baptize her in June.

We do have people saved in our services, but these in office meetings are also common. People come and hear the gospel, but then they have questions about how it applies to their particular situation. I always end the service by letting people know that if they have questions and need to talk, I would love to set up an appointment with them.

This is also one more reason I am thankful for our new building. People do seem comfortable meeting in an office setting and it is great that there is an office to meet in.

Mothers Day

We had a great Mother's Day service with 86 in attendance. It is always good to see new faces (which continues to happen on nearly a weekly basis). Seems we get our biggest boost on Easter, Mother's Day is second, and we sometimes see a little rise around Christmas.
